PROFILE

Motivated and detail-oriented Computer Applications graduate with strong skills in frontend and full-stack web development. Proficient in building responsive, user-friendly web applications using modern technologies like React and JavaScript. Passionate about problem-solving, continuous learning, and developing scalable digital solutions.

PROJECTS

1. **Full Stack Web Application**
   - Developed a full-stack web application with user authentication and database integration
   - Implemented secure login/signup functionality
   - Designed responsive UI using modern frontend practices
   - Integrated REST APIs for seamless data communication
2. **Frontend React Project (Personal)**
   puzzle-game-jig-saw.vercel.app
   - Built a responsive and interactive web application using React
   - Used component-based architecture for better scalability
   - Improved user experience with clean UI and smooth navigation
3. **Frontend Project (Cloud Backend Integrated)**
   - Created a frontend application connected to a cloud-based backend
   - Handled API requests and dynamic data rendering
   - Demonstrated understanding of real-world application flow
4. **Additional Frontend Projects (2)**
   - Developed multiple responsive websites using HTML, CSS, and JavaScript
   - Focused on UI/UX design and performance optimization

EDUCATION

University

B.Sc. in Computer Applications
Brahmanand P.G. Colllege, Kanpur
2023-26

SKILLS

- **Languages:**
  HTML, CSS, JavaScript
- **Frameworks & Libraries:**
  React.js
- **Backend & Database:**
  REST APIs, Authentication, Database Integration
- **Tools & Platforms:**
  Git, GitHub,
- **AI Develoment Tools:**
  Replit, Claude, Lovable
